

A CHILD'S BILL OF RIGHTS

Every day in Canada, hundreds of babies are born. These children come into this world with the hope of becoming a happy, healthy, contributing member of society. However to reach this goal, a variety of needs must be met. Although each and every child is born into its own unique set of circumstances, all children in Canada have the right to expect a minimum standard of living and a variety of opportunities and life experiences. You are to create a CHILD'S BILL OF RIGHTS, which will list the rights required to ensure every child born in Canada will be able to achieve their maximum potential. You must provide 8-12 minimum standards that every child should have the right to experience.
