

Other question (s):

Student Reflections:

1. Give three reasons why you would like this job (be specific):

- a) You get to learn how to use cool, advanced equipment
- b) The purpose of this job is to prevent foods with drug residue from reaching the open market
- c) You get to travel to interesting places during business trips

2. Give three reasons why you would not like this job (be specific):

- a) It's complicated and hard to learn how to do various things
- b) Consequences are really bad if you make a mistake because you are working in a lab with lots of chemicals
- c) I'm not very good with names, so it will be hard to remember the names of your coworkers as there are quite a few of them

3. Is this job for you? Why or why not?

I do not think this job is for me because it is hard to learn the various procedures, and I would have to learn much more about chemistry to be successful in ~~an~~ such an environment as this.

4. Explain the value of the TOKTW experience in relation to your ideas about your post secondary (after high school) plans (education?, training?, travel?, work?).

Blog Post:

Step 1: Go to your Blog

Step 2: Create a new post

- *Title:* TOKTW 2016
- *Category:* Portfolio
- *Tag:* TOKTW2015(Teachers last name in Capitals) e.g. TOKTW2015HUBBARD
- *Add Media:* Add a picture or video of your work place

Step 3: Add your assignment to the post by doing one of the following

- Copy and paste the assignment from a word document
- Type in all of the questions and answers
- Upload a PDF
- Any other means to place your work in your post

Step 4: Click Publish
