

B.C. Dec. 1934.

Canadian Govt. at Ottawa, Canada

Well Mr. R.B.Bennet, arnt you a man or are you? to be the cause of all this starvation and privation. You call us derelicts, then if we are derelicts what else are you but one too. only a darn sight worse. You said if you was elected, you would give us all work and wages, well you have been in the Prime Ministers shoes, now, for 4 years. and we are still looking for work and wages. You took all our jobs away from us. We can't earn any money. You say a relief camp is good enough for us, then its too good for you Mr Bennet, you are on releif your own self. You put away your big govt salary, then ask the gov't. to pay for your big feasts, while we poor fellows starve. While you jazz around the hotel girls.

[...]

P.S. this will take my last 3 cents, but we hope it goes to the bottom of you, and that you will hand us out both work and living wages. You have caused lots of people to kill their families and themselves rather than to slowly starve to death, or freeze to death. Try it you prime minister, just try it.

Now you are trying to get war going to make yourself richer. Well R.B.Bennet, I hope you get your share of the bullets.

[...]
