7. How do you anticipate this job changing in the next 5 years or so? Things being more digitalized

Other question (s):

N/A

Student Reflections:

1. Give three reasons why you would like this job (be specific):

- a) Learning to communicate more fluently with other people
- b) Holding yourself at a higher standard than other positions
- c) Dealing with a lot of financial things such as money

2. Give three reasons why you would not like this job (be specific):

- a) Can be stressful a lot of times, especially dealing with people's priorities
- b) Constantly being on the phone and doing meetings can be anxious
- c) Sometimes not being able to spend as much time with your family

3. Is this job for you? Why or why not?

Personally, I don't think this is the job for me because it does seem like an interesting job, but I feel like there's better jobs out there that suits me better. This job can also be stressful and anxious at times, and there can be many time-consuming things that result in not enough time with your family during the week which always is not good for anyone in your family.

4. Explain the value of the TOKTW experience in relation to your ideas about your post secondary (after high school) plans (education?, training?, travel?, work?).

I feel like this experience has been a great help for me because even though I don't plan on working at the bank, it is still a good thing to experience because in a bank you have to communicate all the time with all sorts of people, and this still will be a great help in the future in most jobs, and so for me personally I think it was a good experience meeting people.
