

Core Competencies Self-Assessment

Name: Ella

Date: 2020/01/13

How does the artifact you selected demonstrate strengths & growth in the communication competency?

In what ways might you further develop your communication competency?

How does the artifact you selected demonstrate strengths & growth in the thinking competencies?

In what ways might you further develop your thinking competencies?

How does the artifact you selected demonstrate strengths & growth in the personal & social competencies?

In what ways might you further develop your personal & social competencies?

Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

I selected the communication core competency for my Artifacts of Learning post that I did earlier this month in science class. I chose the communicating competency because I connected with a lot of different people and resources for this post, including Tim Mephram, Nicola (Tim's daughter), Mrs. Henderson (the school librarian), Tinkercad and Amazon. I had to connect with all these people and resources in order to obtain the information I needed to reflect on my finished product. Another reason I chose communicating as my core competency is because a big part of this assignment was a group project and I wouldn't have been able to do this post without working and communicating with them. It was important to communicate together in order to make sure we all understood what to do, share information and create a finished product. I feel that I was a strong communicator in my group, and this was demonstrated when I arranged a group chat on imessages, talked to our group during classes, by making sure we were all on the same page about our project and understood what to do. The last reason why I chose communicating as my core competency is because I had to explain and present my ideas and results many times and in a few different ways. This is demonstrated when I posted 3 separate posts on my information and questions that I had while doing this project. This is also shown when I had to present my progress and ideas in front of the class but also during skype chats with Tim Mephram and his daughter. I learnt a lot from this unit, and I think it really brought awareness to me to understand that design and innovation can positively impact people's lives.

Publish Your Self Assessment

You will now attach and/or embed your self-assessment to the bottom of the blog post with the artifact you have chosen. You may choose to make this post private or public. After placing your artifact on a blog post, follow the instructions below.

1. Categories - Self-Assessment
2. Tags - Now tag your post using the tag that corresponds to the competency that you have written about. You can choose more than one. Please use lower case letters and be exact.
 - #creativethinkingcc
 - #communicationcc
 - #criticalthinkingcc
 - #socialresponsibilitycc
 - #personalidentitycc
 - #personalawarenesscc
3. Use the [Add Document](#) button located at the top of your post page and embed your self-assessment at the bottom of your blog post.
4. Publish
