

Science Co-op 2022 Whiteboard Collaboration Rubric

Name:

Date:

NOT Effective Collaboration

Effective Collaboration

- Prioritizes **speed** and their own understanding
 - Rushes through questions
 - Tries to keep up with other groups
 - Shows/communicates minimal steps
 - Leaves little room for others to participate
 - Treats others as an inconvenience
(Unintentionally perhaps...)
- Prioritizes the group's understanding
 - Gives others **time to think**
 - Clearly shows all steps
 - Shows support and **encouragement**
 - **Checks-in with group members**
 - **Offers pen**
 - **Leaves room for others to participate**
 - **Moves on only when ALL members understand the question**

I often get frustrated after making mistakes, and as a result I don't pay attention as much.

- Belittles others and/or their mistakes
- Gives up easily and/or relies on others to reach the answer
- Passively participates - does not volunteer strategies, pose questions, or seek clarification
- Does not listen/interrupts others
- Resistant to new/different strategies
- Embraces mistakes as opportunities for learning.
- Always gives **best effort and strives to be their best**
- **Actively participates - volunteers strategies, poses questions and seeks clarification**
- **Actively listens to all group members**
- **Open to different strategies**
