Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

Throughout this assignment I used my critical thinking skills. I can easily view both sides on how social media is good or bad but in order to create a persuasive video on why it's good I needed to analyze all the positive aspects of it and present it in a convincing way. I used my own experiences with social media to show and create ideas of how it should be seen positively. I was able to view both point of views from the argument and develop on opinion on which I believe is the right answer.
