Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

Doing tire rotations in my auto class has helped me strengthen my communication because it is a job that I did with a partner or 2. I need to communicate who was taking off the tire and where it would go. We need to communicate with the whole class when we lift the car to be safe. This also helped me improve my communication skills with small groups and working with a partner. Also need to communicate who is torquing the tires to make sure that it gets torqued and the tires get put on properly.
