Victoria Brown and Peter Hopkins launched Big Think in 2007, a multi-media website. Interviews, talks, and roundtable conversations with professionals from a variety of professions are included in the. Big Think is the leading supplier of educational content that is expert-driven and useful. You may learn more rapidly by watching hundreds of films with legends like Bill Nye.

## The Camera

The camera is my object because I am a film maker and the camera allows me to record and showcase creative ideas to an audience.

My name is Louwrens and this is my 'The Internet is Awesome' Milanote project. here you can look into my online life.

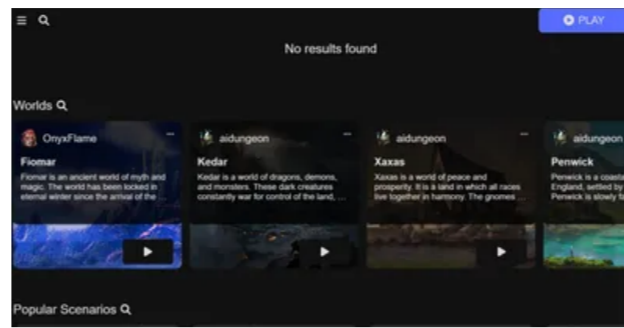

## 1-C Welcome to the Grim Dark

Something I am passionate about is the universe of Warhammer 40,000.

### What is Warhammer?

"The 41st millennium has arrived. The Emperor of Mankind has lain motionless on the Golden Throne of Earth for more than a hundred years. He is in control of all people according to the gods will and in command of a million planets according to the might of His limitless legions. He is a decaying husk tortured invisibly with power from the Dark Age of Technology. The Emperor nevertheless keeps up His unwavering watchfulness even in His undead form. Being a man in these times means being one of countless billions. It is to endure the most ruthless and violent government conceivable. Forget about the power of science and technology since so much has been lost and will never be learnt again."

## 1-D My online discovery

<https://play.aidungeon.io/main/home>

[play.aidungeon.io - home](https://play.aidungeon.io/main/home)

the free text adventure game AI Dungeon employs artificial intelligence to create content for both single-player and multiplayer modes. Players may design their own unique adventure scenarios and share them.

This video is the into cinematic for the game Mechanicus. I'll periodically watch this again because it's from one of my favourite franchises. I get chills whenever I view it because of how powerful the finale is; this is mainly due to the sound design and art style.

## The song

This song, which is set in the future, is about a farmer who retains a Red Barchetta in his barn long after cars are made illegal. The child arrives, rides in the vehicle, and then the Gleaming Alloy Air vehicle begins to pursue him (possibly the police). Outrunning and dodging the cops, he then drives back to the barn, conceals the car, and joins his uncle by the fire to dream. This song is one that I am in the process of learning to play because Neil Peart was the drummer and I am learning the drum parts for songs that he created a new style for.
