Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

Our second to last project in Drafting and Design was building our dream houses in Revit. This project took a couple weeks to finish and took lots of effort and creativity to complete. There are many areas in which we used creative and critical thinking. First of which, we had to imagine what our dream homes would look like. During this stage, we drew 5 design drafts of the first floor to get an idea of what we were going to build. After, we chose the draft we liked best and built up from that. I then built the house in Revit and had to use creative and critical thinking to solve problems, and make the design functional and practical.
