## Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

In Accounting 11 this year, we haven't applied many creative skills. Critical thinking is always prominent in this course, as it is very linear and the work follows as such. In a unique circumstance, this CC reflection will be about the communication competency rather than my commonly occurring creative and critical thinking. Shown above is the first practise quiz I had finished in this course. When completing a quiz and/or test, much communication and clear transportation of information is imperative. I believe in this artifact, I demonstrated clear and concise thinking as well as sufficient understanding of the chapter. Improving my communication competency will take time, but eventually, I believe consistent practice and application will develop my skills.
