

Avatar

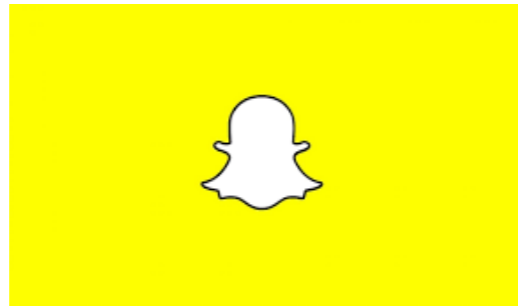

I am Nick, I'm 16 and I'm 6'1. I love sports like soccer, basketball, and hockey as well as aviation. I'm a very hands on person and I love food. My favourite food to make is tortalini because it's easy and quick but also tastes good. However my favourite food to eat is a big juicy burger.

C

I am very passionate about aviation as I have said before, but I am also passionate of many other things. I am very passionate in sports and being in teams with people. I love having different roles in group efforts to complete something or to reach a goal. Sports have always been a passion of mine because I love playing games and making my family proud as well as playing good for my own satisfaction. I play soccer on a team with many of my friends and its so fun to compete at a high level of action against other people. Music has always been a passion of mine as well because of my dad. My dad plays many instruments and played in many bands so I also have that interest for music. Spotify is an app that I use everyday where I can escape reality at any time.

favourite app

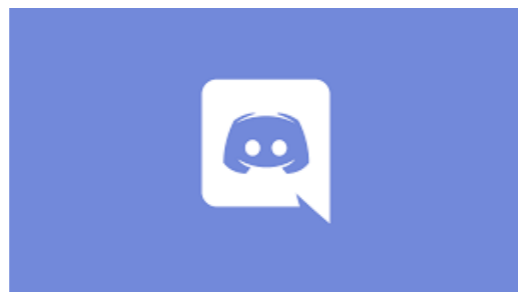

Snapchat is my favourite app right now. I find that I spend most of my time on Snapchat because of the community I have built on it and the history. What I mean by history is all the memories I have on my account. I have videos and documents of so many things that have taken place in my life, including fun nights with my friends. With Snapchat you can also have massive group chats where you can send either videos or photos too. If you are doing something exciting or you just want to share something you like you can post onto your story where everyone can see.

E

This is something that I haven't just discovered but its something I use that is super convenient. Skip the dishes is an app where you order food from almost anywhere and it gets dropped off right at your door. Only downside to skip the dishes is that my bank account takes massive hits from my spending sprees from either Wendy's or sushi. Everyone already knows what skip the dishes is but its something I just started using and it lives up to the hype.

D

One app that makes me laugh the most out of any is Tiktok. I don't watch Tiktok for dancing videos I go on Tiktok and see funny videos that people make. These Tiktok videos make me laugh and happy as they are often very relatable. Something that also brings me laughter is discord. Discord is funny and it helps me escape any stress I have from school or work. Discord is an app that is used by people to have calls in groups or 1 on 1. Discord has servers with different channels where friends will be in, where you can then join and talk amongst everyone. I love discord especially because my friends are super funny. Many times everyone will be on a game together while calling on discord.

Symbolic Image

Aviation has always been a big piece of me. My whole life I have pictured being a pilot and its something I would be happy doing my whole life. Aviation is a big part of me because to me they are so free. I always imagine working in a office and to me that just doesn't sound appealing but an office 40,000 ft. in the air sounds just right.

B

I stand for everyone being treated with the same respect you would want to receive. I also believe that there is too much discrimination in this world. One place I see discrimination or inequality is in sports. For example in hockey you don't see many black people make it to the big leagues. I believe there is obviously not as many black players as white players but there is definitely something behind the scenes about allowing a lot of black players into the NHL. Another big topic is the WNBA not getting as much pay for their players. I do believe that the WNBA doesn't generate as much money as the NBA because of the slower paced game however, I do think that the WNBA could be more commercialized around the world to bring more viewers.

[Girls and Women's Hockey | Opportunities to play or get involved](#)

The 2020 IIHF Global Girls' Game will bring 40 players from across Canada together in St. John's, and give one Manitoban a chance to play in front of a few special fans. The Women Master Coach Developer program is equipping women with the training to develop more coaches.

[Mohamed Salah 2021 - Crazy Skills & Goals | HD](#)

This is my favourite video because Salah is one of my favourite football players as of right now. He plays for Liverpool which is my favourite premier league team. His speed and skill are unmatched. There is definitely some racism towards Salah because he is Egyptian and fans of rival teams like to involve ethnicity. Despite the negativity Salah faces he goes out and leaves his heart on the field.

Song

[Cordae - C Carter \[Official Audio\]](#)

Cordae is one of my most favourite artists right now. He makes a lot of relatable music that also sounds good. His music is catchy and his lyrics are easy to memorize. In this song he talks about dreaming as a kid about things that only people with a lot of money can afford. He talks about how he was super poor and that his work ethic wasn't good enough. He says "being broke make you try harder" which is pretty relatable to me in the sense that say I get a bad grade on a test, it makes me try harder to get a good grade. Overall I relate to this song because of his story about working hard and I love the instrumental.
