Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

I chose the song. I was working with a partner so in order to get our work done we had to communicate with each other. The song demonstrated my ability to create ideas and share them with my partner in order for us to then create rhymes. We also communicated how to follow the beat of our music we chose in order to rap our song to the rhythm. I also grew my listening skills as listening is part of communication as well. I think in order to grow my communication competency I need to listen to others' ideas and add my own to them as well. In addition, I need to be better at respectfully disagreeing
