How does the artifact you selected demonstrate strengths & growth in the communication competency?

In what ways might you further develop your communication competency?

## Self-Reflection

Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.

The artifact I have chosen is the propaganda essay for the second world war...

I think that this artifact demonstrates both thinking competencies and personal, social awareness.

How does the artifact you selected demonstrate strengths & growth in the thinking competencies?

In what ways might you further develop your thinking competencies?

In this assignment we had to find propaganda from the second world war and describe what we think of it and whether it is correct and ethical. In my opinion propaganda is not ethical and is very wrong!

I think this demonstrated the thinking competencies because it involved righting and research.

I think that this also demonstrated personal, social responsibility' s because I needed to be conscious of what I said and how I approached the topic as well as being aware that this topic is hard for some people and I felt like it was very important that I was correct about what I say.

How does the artifact you selected demonstrate strengths & growth in the personal & social competencies?

In what ways might you further develop your personal & social competencies?
