<u>Concept Map Assignment</u>

Create a concept map from the definitions in the Poetry 9 Terminology booklet. For each concept you are to:

1. Write the word
2. Write the definition
3. Give an example for ALL the concepts except "Verse Forms". For "Types of Poems" you only need the title of the poem, you do not have to write out the whole poem.
4. To get a higher mark, use your own examples- not the ones in the reference booklet.

Be sure to show the relationships between the concepts by linking them to their "parent". See examples.

10/10= fully completed with unique examples

9/10= fully completed with most examples unique

8/10= completed but with booklet examples

7/10= completed but with no examples
