

**Narrative Paragraph:**

→ A narrative paragraph is a paragraph that recounts a series of events or an experience. By combining a number of these narrative paragraphs, you can tell a story.

**Explanatory Paragraph:**

→ An explanatory paragraph is a paragraph that relays information about a subject. An explanatory paragraph may involve the presentation of an idea surrounding the subject or simply an explanation of how to do something.

**Info graph:**

→ An info graph is a visual representation of information, that can include a variety of elements such as pictures, charts, diagrams, text and icons. Using an info graph is an easy way to relay information visually and clearly.
